

MATERIAL SAFETY DATA SHEET

As of January 2020, according (in support) to Directive (EG) no. 1907/2006

WR - GLASS BEADS

1. IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY / UNDERTAKING

1.1 Product identifier

Trade name Glass beads (Blasting Beads)
for all sizes and types

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses blasting beads

1.3 Details of the manufacturer/supplier of the safety data sheet

Werner Rumler
Industriebedarf GmbH
Haydnstraße 13
D-40724 Hilden / Rhld.
GERMANY

Phone +49 2103 3 10 63
Fax +49 2103 3 10 65

info@rumler-hilden.de
www.rumler-hilden.de

Emergency telephone number

Werner Rumler GmbH
Sales Department
D-40724 Hilden / Rhld.

Phone +49 2103 3 10 63

This number is only available during the following office hours: Mon-Thu: 8 am-4 pm., Fri: 8 am-1 pm.

2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 (CLP)

This mixture does not meet the criteria for classification in accordance with Regulation No. 1272/2008/EC.

Classification according to Directive 1999/45/EC (DPD)

This mixture does not meet the criteria for classification in accordance with Directive 1999/45/EC.

The most important adverse physicochemical, human health and environmental effects

Repeated inhalation of large amounts of dust over a long period of time increases the risk of developing lung diseases. The product enters directly through the oral or nasal cavity.

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008 (CLP)

not required.

2.3 Other hazards

Dust can cause irritation to the cornea and conjunctiva. Causes mild skin irritation. Localised redness, oedema, purities and/or pain. Inhalation of dust may cause respiratory irritation.

3. COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substances

not relevant (mixture).

3.2 Mixtures

Description of the mixture

Soda-lime glass CAS No. 65997-17-3, EINECS No. 266-046-0

Composition/information on ingredients

SiO₂ (68-75%), Na₂O (12-18%), CaO (7-12%), MgO (0-5%), Al₂O₃ (0-2,5%)

4. FIRST AID MEASURES

4.1 Description of first aid measures

General notes

In all cases of doubt, or when symptoms persist, seek medical advice.

Following inhalation

In case of accident by inhalation: remove casualty to fresh air and keep at rest. In case of respiratory tract irritation, consult a physician.

Following skin contact

Rinse skin with water/shower. Do not rub affected area. Take off contaminated clothing. If skin irritation or rash occurs: get medical advice/attention.

Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart. Do not rub affected area.

Following ingestion

Rinse mouth with water (only if the person is conscious).

4.2 Most important symptoms and effects, both acute and delayed

Pulmonary irritation, localised redness, pruritis, cough.

4.3 Indication of any immediate medical attention and special treatment needed

none

5. FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media

The product itself does not burn. Combustible: Packaging materials.

5.2 Special hazards arising from the substance or mixture

none

5.3 Advice for firefighters

Co-ordinate firefighting measures to the fire surroundings.

Special protective equipment for firefighters

Filtering half mask (EN 149), P3 (filters at least 99,95 % of airborne particles, colour code: White).

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Prevent skin contact. Control of dust. Do not breathe dust.

For emergency responders

In case of spillage - Wear respiratory protection: Half mask with particle filters P2 (filters at least 94 % of airborne particles, colour code: White).

Dampen dust and place it in a properly closed receptacle and dispose it safely.

6.2 Environmental precautions

Knock down dust with water spray.

6.3 Methods and material for containment and cleaning up

Take up mechanically (control of dust, dampen dust). Other information relating to spills and releases: Special danger of slipping by leaking/spilling product. Ventilate affected area (Particulates and dust). No dry sweeping using a broom. Do not blow off dust deposits.

Reference to other sections

Personal protective equipment: see section 8.

Disposal considerations: see section 13.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Don't use a brush or compressed air for cleaning surfaces or clothing. Avoid the release and swirling up of dust.

Measures to protect the environment

Completely emptied packages can be recycled.

Advice on general occupational hygiene

Wash hands after use. Do not to eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas.

7.2 Conditions for safe storage, including any incompatibilities

When not in use, keep containers tightly closed. Store in a dry place. Removal of dust deposits (control of dust).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

National limit values

Occupational exposure limit values (Workplace Exposure Limits)

Country (Identifier) - Source	Dusts, particles	
	TWA [mg/m ³]	STEL [mg/m ³]

("Protection of workers from the risks related to exposure to chemical substances at work.").
TW (Taiwan)	PEL (Permissible Exposure Limits of hazardous substances in air). CLA: Council of Labor Affairs "Standards of permissible exposure limits of airborne hazardous substances in workplace."

8.2 Exposure controls

Appropriate engineering controls

Don't use a brush or compressed air for cleaning surfaces or clothing. Regular cleaning of work area. Use a vacuum cleaner fitted with an HEPA (High-Efficiency Particulate Air) filter.

Individual protection measures (personal protective equipment)

Eye/face protection Use safety goggle with side protection.

Skin protection

hand protection Wear protective gloves.

type of material reinforced coating: nitrile, NR: natural rubber, latex.

other protection measures Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling. Wear suitable working clothes.

Respiratory protection

Use respiratory protection for dust-intensive work: Filtering half mask (EN 149).

Environmental exposure controls

Control of dust. Use of compressed air to clean clothes prohibited.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance

Physical state solid (spherical)

Colour transparent

Odour odourless

Other physical and chemical parameters

pH (value) not applicable

Melting point ca. 1400 °C (transition temperature: c. 630 °C)

<i>Initial boiling point and boiling range</i>	not applicable
<i>Flash point</i>	not applicable
<i>Evaporation rate</i>	not applicable
<i>Flammability (solid, gas)</i>	not applicable
<i>Vapour pressure</i>	not applicable
<i>Density</i>	2 - 2,6 g/cm ³
<i>Bulk density</i>	1,2 - 1,8 g/cm ³ (depending on the grain size)
<i>Solubility(ies) - water solubility</i>	insoluble
<i>Partition coefficient</i>	not applicable
<i>Viscosity</i>	not relevant (solid matter)
<i>Explosive properties</i>	none
<i>Oxidising properties</i>	none

9.2 Other information

none

10. STABILITY AND REACTIVITY

10.1 Reactivity

This material is not reactive under normal ambient conditions.

10.2 Chemical stability

See below "Conditions to avoid".

10.3 Possibility of hazardous reactions

No known hazardous reactions.

10.4 Conditions to avoid

There are no specific conditions known which have to be avoided.

10.5 Incompatible materials

There is no additional information.

Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known.

11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Classification according to GHS (1272/2008/EC, CLP)

This mixture does not meet the criteria for classification in accordance with Regulation No 1272/2008/EC.

Acute toxicity

Shall not be classified as acutely toxic.

Skin corrosion/irritation

Shall not be classified as corrosive/irritant to skin.

Respiratory or skin sensitisation

Shall not be classified as a respiratory or skin sensitiser.

Specific target organ toxicity (STOT)

Shall not be classified as a specific target organ toxicant.

Aspiration hazard

Shall not be classified as presenting an aspiration hazard.

12. ECOLOGICAL INFORMATION

12.1 Toxicity

Aquatic toxicity (acute)

Shall not be classified as hazardous to the aquatic environment (acc. to 1272/2008/EC).

12.2 Process of degradability

Data are not available.

12.3 Bioaccumulative potential

Data are not available.

12.4 Mobility in soil

Data are not available.

12.5 Results of PBT and vPvB assessment

Data are not available.

12.6 Other adverse effects

Data are not available.

13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Waste treatment-relevant information

Possibility of reuse or recycling.

Waste treatment of containers/packagings

Completely emptied packages can be recycled.

Relevant provisions relating to waste

Non-hazardous waste in accordance with Article 3 (2) in conjunction with Annex III of Directive 2008/98/EC. Please consider the relevant national or regional provisions.

Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

14. TRANSPORT INFORMATION

14.1 UN number

not relevant (not subject to transport regulations).

14.2 UN proper shipping name

not relevant.

14.3 Transport hazard class(es)

Class -

14.4 Packing group

not relevant.

14.5 Environmental hazards

none (non-environmentally hazardous acc. to the dangerous goods regulations).

14.6 Special precautions for user

There is no additional information.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

The cargo is not intended to be carried in bulk.

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Industry or sector specific available guidance(s)

European Network on Silica (NEPSI) "10 Golden Rules to suppress dust".

National regulations

See section 8 for Occupational Exposure Limits (OELs).

Recommendations

Health and Safety Executive (HSE)

- Control of exposure to silica dust.
- Respiratory protective equipment at work (practical guide HSG53).

15.2 Chemical Safety Assessment

Chemical safety assessments for substances in this mixture were not carried out.

16. OTHER INFORMATION

Abbreviations and acronyms

Abbr.	Descriptions of used abbreviations
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures
DPD	Dangerous Preparations Directive (1999/45/EC)
GHS	"Globally Harmonized System of Classification and Labelling of Chemicals" developed by the United Nations
MARPOL	International Convention for the Prevention of Pollution from Ships (abbr. of "Marine Pollutant")
PBT	Persistent, Bioaccumulative and Toxic
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
vPvB	very Persistent and very Bioaccumulative

Key literature references and sources for data

- Regulation (EC) No. 1907/2006 (REACH), amended by 453/2010/EU
- Regulation (EC) No. 1272/2008 (CLP, EU GHS)

Classification procedure

Physical and chemical properties

The classification is based on tested mixture.

Health hazards/Environmental hazards

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

Disclaimer

This information is based upon the present state of our knowledge. This SDS has been compiled and is solely intended for this product.
